ABOUT US

At Entry Edge, we believe your front door is more than just an entrance—it's a statement of style, a reflection of your home, and the first impression of what's inside.

We specialize in custom fiberglass entry doors that combine innovative design, exceptional craftsmanship, and lasting durability. Every door is carefully engineered and handcrafted to elevate your home's curb appeal while providing superior performance for years to come.

With a passion for design and a commitment to quality, our team works closely with you to bring your vision to life. From contemporary to classic, subtle to bold, we offer a wide range of customizable door designs to suit your taste and lifestyle.

WHO WE ARE

We are a team of designers, craftsmen, and industry experts who are passionate about creating exceptional entry doors that blend beauty, function, and innovation.

Proudly Canadian, we design and build every door with integrity, precision, and care—right here at home.

OUR PROMISE

Premium Materials.
Beautiful Design.
Built for Life.

This is the Entry Edge difference.

WHY FIBERGLASS?

At Entry Edge, we recommend fiberglass for one simple reason: it delivers exceptional beauty without the upkeep. Our doors are designed to capture the look and feel of real wood, while offering the strength and reliability your home deserves.

Built with premium materials and reinforced for lasting performance, our fiberglass doors are made to withstand the elements and everyday life—without warping, cracking, or fading. It's the perfect combination of style, durability, and peace of mind.

DURABLE

High impact resistant and built to last for years to come.

WEATHERPROOF

Resists rain, snow, and harsh weather without warping or swelling.

FADE RESISTANT

Colour stays vibrant and rich, even with sun exposure.

LOW MAINTENANCE

No painting, staining, or sealing required—ever.

ECO-CONSCIOUS

Made with sustainable materials for a greener tomorrow.

MILLING OPTIONS

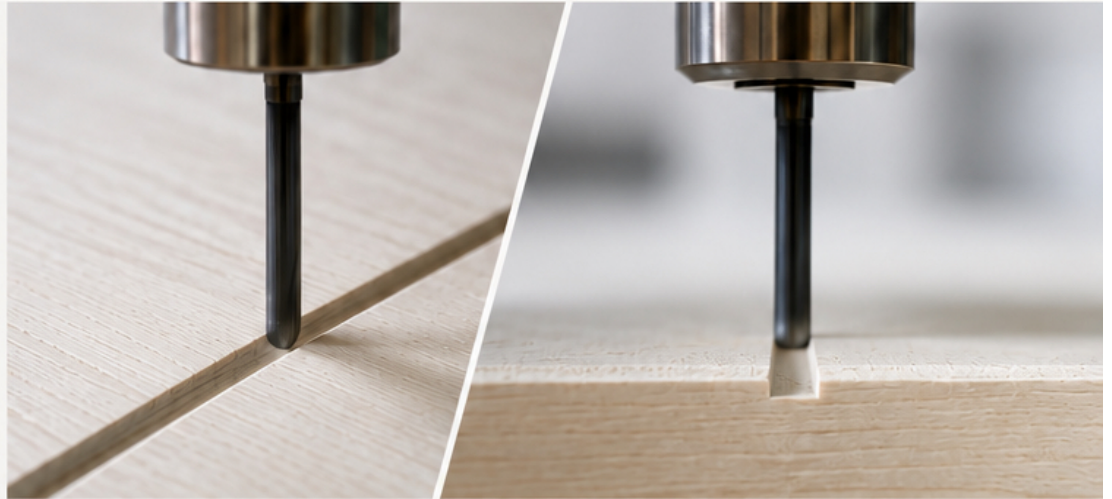

Precision makes the difference. Our expert milling options allow you to customize the fine details of your door for a look that is uniquely yours.

Each profile is carefully crafted to enhance the design, depth, and character of your entryway.

FLAT

A clean, subtle groove with a flat bottom. Perfect for modern, minimal designs.

BALL NOSE

A softly rounded groove that adds depth and elegance to any door style.

V - GROOVE

A crisp, angled profile that creates a striking shadow line and architectural detail.

CONTEMPORARY DOOR DESIGNS

Our contemporary door designs combine modern aesthetics with exceptional craftsmanship. Each door is thoughtfully created to make a bold first impression and complement today's architectural styles with ease.

From sleek lines to innovative materials, our doors are built to enhance your entryway while delivering lasting beauty and performance.

Contemporary Door Textures

Our line of premium fiberglass doors come standard with 3mm fiberglass skins, a re-inforced internal LVL structure and high density foam. Our routing capabilities on these doors are limitless due to our sophisticated machinery and experienced engineers. These designs come in Mahogany, Maple, Oak and Smooth textures.

Traditional 6'8" Doors

Did you know that 6'8" is one of our most popular sizes for traditional doors? This is because many entryways were built with this door height in mind, making it a common industry standard. We offer a wide variety of styles and designs in this size, so you're sure to find the perfect door to complement your home's unique style.

Available in widths of 32" 34" & 36"

Select models now available in 40" & 42"

ENTRY EDGE

Exclusive Door Designs

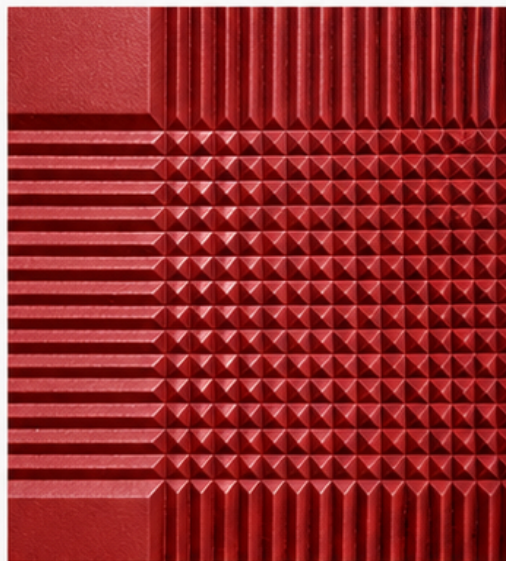

At Entry Edge, we proudly offer a distinctive collection of exclusive fiberglass door designs, created for homeowners who want something truly unique.

Each design is thoughtfully crafted to combine modern aesthetics, lasting durability, and superior performance—making a bold statement before you even step inside.

Our exclusive doors go beyond function; they reflect your personal style and set your home apart.

AZTEC

A door showcasing a unique striped pattern that seamlessly combines to form a striking knurled texture. A premium evolution of the Tower design—our most popular and best-selling model—Aztec blends contemporary artistry with refined craftsmanship. The result is a door that elevates any space with its luxurious and sophisticated presence.

UNIQUE KNURLED TEXTURE

The intricate striped pattern comes together to create a stunning knurled texture that adds depth, dimension, and a distinctive modern look.

CONTEMPORARY STRIPED DESIGN

Clean lines and precise detailing deliver a contemporary aesthetic that blends artistry with exceptional craftsmanship. A bold statement in any entryway.

BANFF

Inspired by one of Canada's most breathtaking national parks, Banff is one of our most exclusive door designs. We use real Sheet Stone and apply it to our fiberglass doors through a meticulous process of cutting, surfacing, adhering, and pressing.

Available in any of the natural stone veneers from Sheet Stone.

CRAFTED TO PERFECTION

Expertly applied and finished for unmatched durability, performance, and timeless elegance.

REAL NATURAL STONE

Genuine Sheet Stone brings the raw beauty of nature to your front door.

UNIQUELY DISTINCT

Each door is one-of-a-kind, with natural variations that ensure no two are alike.

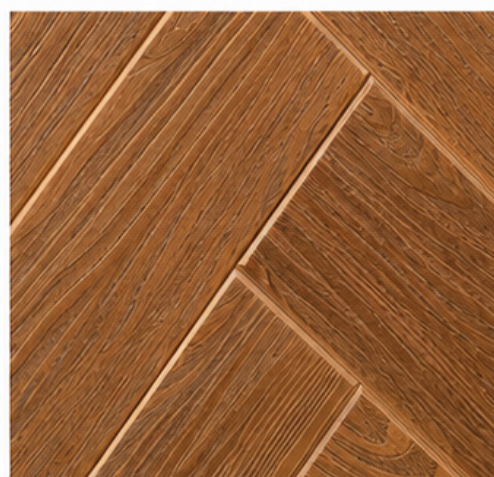

MUSKOKA

The Muskoka door is one of our most popular custom designs. Inspired by real wood, it features layered fiberglass in a herringbone pattern that delivers the warmth and style of wood with the durability and performance your home needs. A signature look, built exclusively by Entry Edge.

HERRINGBONE PATTERN

A timeless design that brings depth, character, and natural beauty to your entrance.

LAYERED FIBERGLASS

Crafted with layered fiberglass for the look and feel of wood with the durability and performance your home deserves.

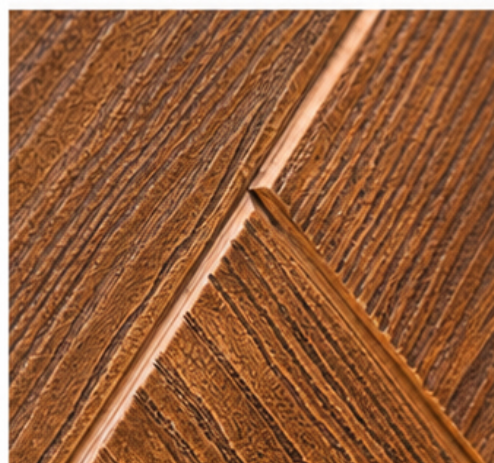

HERRINGBONE

A fresh twist on a timeless pattern. The Herringbone door features a 90-degree rotation of our popular Muskoka design, with fiberglass planks laid in a herringbone pattern for a sleek, modern look. Durable, refined, and versatile—it complements modern, transitional, and traditional homes.

HERRINGBONE PATTERN

A modern take on a classic. The 90-degree rotation creates visual movement and a unique, high-end look.

CRAFTED FOR LASTING BEAUTY

High-quality fiberglass planks with a realistic wood texture for lasting durability and performance.

HARBOUR

When the vertical routed plank door wasn't enough, we reimagined the pattern with horizontal planks. The Harbour door features layers of oak fiberglass built in multiple sections to create a refined, architectural look that stands the test of time.

HORIZONTAL BEAUTY

Clean horizontal planks create a modern, balanced aesthetic.

NATURAL OAK FINISH

Authentic oak grain with a rich, tactile finish that elevates any entrance.

LUX

We're proud to be the only door company that combines multiple textures—Smooth, Mahogany, Oak, and Maple fiberglass—to create truly unique doors. The Lux door features the subtle texture of Mahogany fiberglass, beautifully accented with a stained Oak fiberglass inlay. The geometric pattern creates a seamless transition and adds a stunning design element.

MULTI-TEXTURE DESIGN

A combination of Smooth, Mahogany, Oak, and Maple fiberglass for a rich, modern look with depth and character.

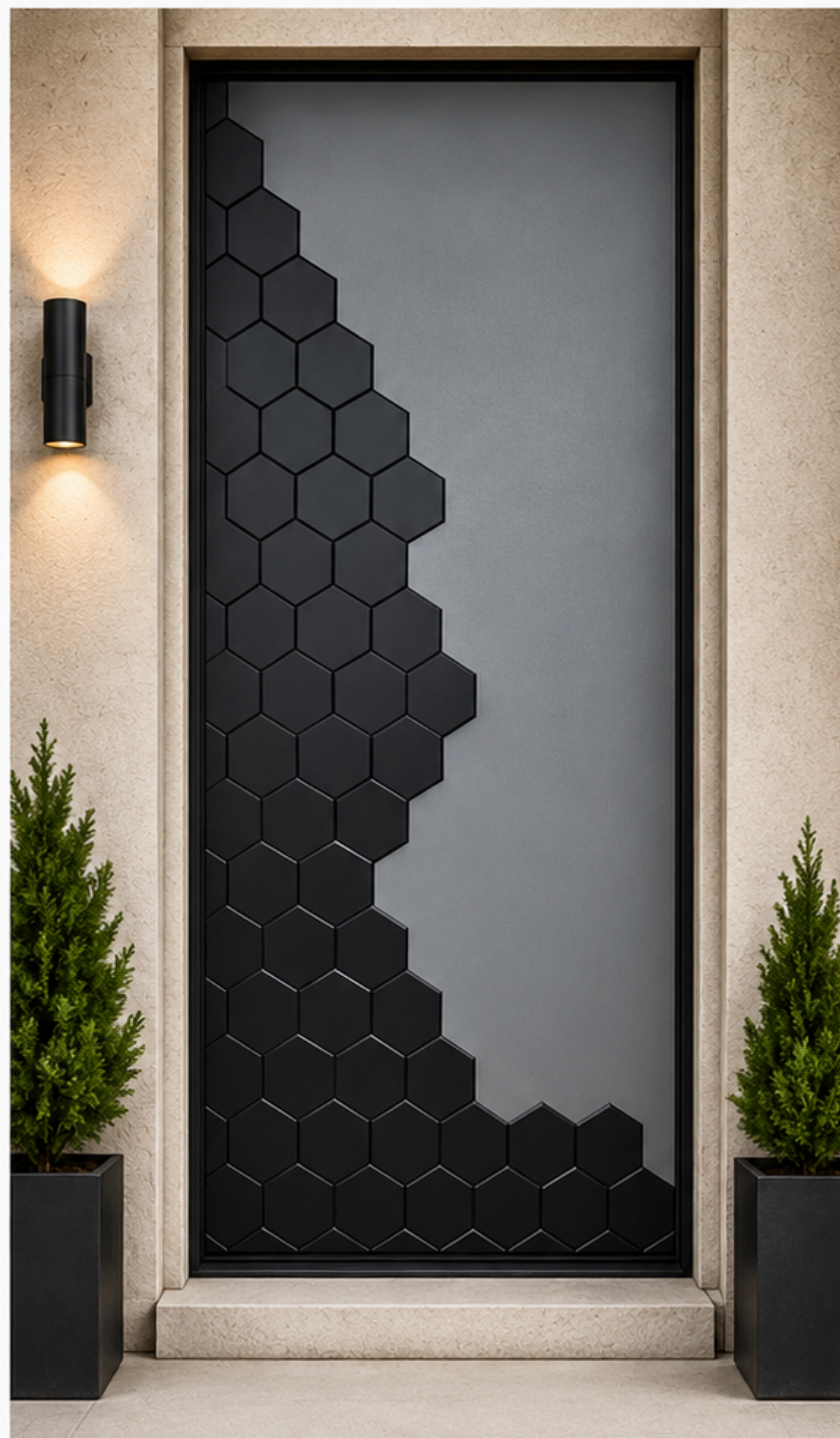

GEOMETRIC INLAY

The stained Oak fiberglass inlay adds contrast and elegance, creating a seamless flow and a striking focal point.

MYSTIC

Smooth fiberglass hexagons flow organically across the surface of our flush Mahogany door, creating a striking sense of movement and depth. The modern geometric pattern adds a unique style to any home. Mix and match colours to suit your taste.

ORGANIC HEXAGON FLOW

Hexagons flow naturally across the door surface, adding movement, dimension, and a modern architectural feel.

CUSTOMIZABLE STYLE

Choose from a variety of colour combinations to create a look that perfectly complements your home.

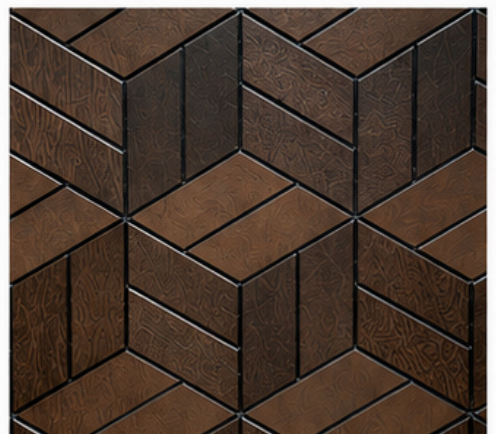

CUBE

An exclusive fiberglass door that makes a bold statement. The stunning 3D cube pattern, expertly stained to enhance its depth and dimension, creates a dynamic visual experience that changes with the light. Precision crafted for a modern, sophisticated look that adds luxury and distinction to any entryway.

3D CUBE PATTERN

A dimensional design that creates movement, depth, and a striking modern look.

EXPERTLY STAINED FINISH

Rich tones and visible wood grain enhance the natural beauty and highlight the intricate design.

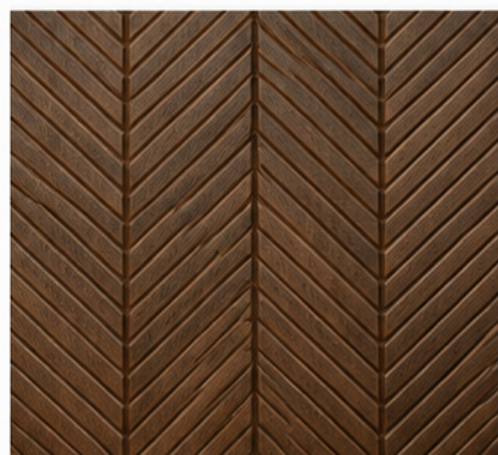

IMPERIAL

Inspired by timeless transitional design, the Imperial door features a refined tight knit chevron pattern that brings elegance and modern style to any entryway. The rich texture and customizable hardware and colour options make it the perfect fit for both classic and contemporary homes.

TIGHT KNIT CHEVRON PATTERN

A refined pattern that adds dimension and a sophisticated touch to your entryway.

CUSTOM STYLE

Choose from a variety of hardware finishes and colours to match your home's unique look.

ARCADIA

Arcadia showcases a refined interplay of horizontal and vertical lines, creating a sophisticated texture that is both modern and timeless. Expertly crafted for lasting beauty, it enhances the architectural integrity of any home with understated elegance.

MODERN ELEGANCE

A perfect balance of clean lines and architectural detail, designed to elevate any entrance.

REFINED TEXTURE

The geometric pattern adds depth and dimension for a striking, contemporary look.

DESIGNED TO IMPRESS

Premium details and minimalist hardware create a seamless, modern statement.

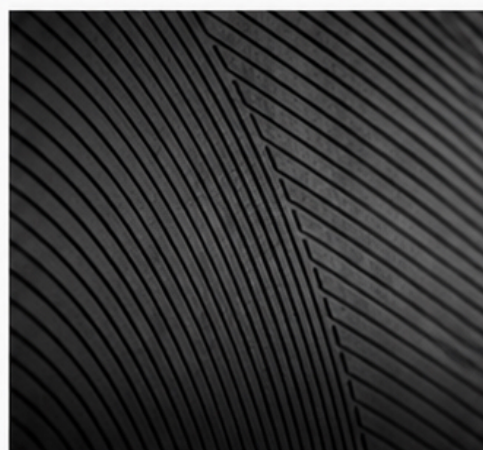

INFINITY

Inspired by the look of wood doors and reimagined in fiberglass, the Infinity design features an intricate routed pattern that draws your eye to a single tinted glass feature in the center. This thoughtful design brings a refined connection to the outdoors while delivering a sleek, seamless contemporary look.

ELABORATE ROUTED DESIGN

Intricate routed lines create depth, movement, and a bold contemporary statement.

CENTRAL TINTED GLASS FEATURE

A single tinted glass opening brings in natural light and connects you to the outdoors while maintaining privacy and elegance.

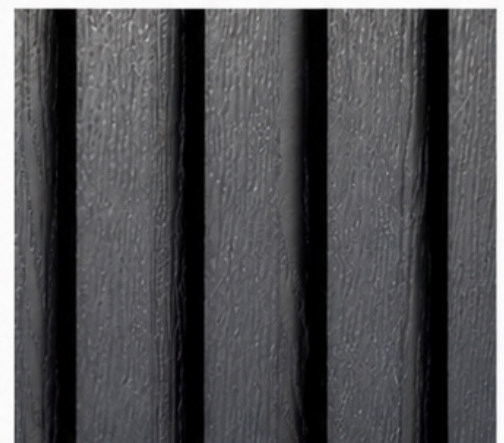

FLUTED

A modern favorite for minimal and contemporary designs. Our Fluted door features a composite mullion overlaid in precisely machined slots for a clean, architectural look. Crafted through multiple stages of production, the result is a stunning fluted fiberglass door with exceptional depth and texture.

ARCHITECTURAL FLUTED DESIGN

Precisely machined vertical flutes create clean lines and depth, adding a modern architectural statement to any entryway.

PREMIUM FINISH

Made with high-quality fiberglass and a composite mullion for a durable, low-maintenance finish that stands the test of time.

STEALTH

Elevate your exterior with our exquisite built-in glass door insert. Crafted with meticulous attention to detail, this door insert seamlessly combines functionality with timeless elegance. The custom made glass will add a touch of sophistication and create a minimal modern entryway to your home.

MINIMAL DESIGN

Sleek vertical glass inserts create a clean, modern statement.

CUSTOM GLASS

Tailored glass inserts add elegance and privacy without compromising light.

Premium Lever Sets

Enhance the beauty and security of your home with our Premium Exterior Lever Sets. Designed to boost curb appeal while improving the protection of your exterior doors, these lever sets deliver the perfect combination of strength, reliability, and timeless style.

What Makes Our Doors Better?

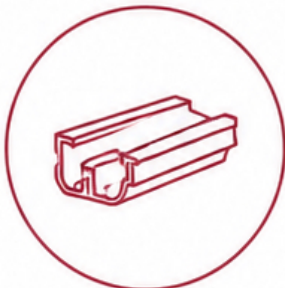

ALUMINUM REINFORCED MULLPOST

Our doors feature an aluminum reinforced mullpost that secures hinges and dead bolts for maximum strength and security. This advanced construction uses a continuous sill and composite header to create a structurally sound door system. Deadbolts and latches pass through a reinforced aluminum plate, giving you lasting peace of mind.

PREMIUM COMPOSITE CONSTRUCTION

Our door systems are 100% synthetic for superior durability and long-term performance. Unlike vinyl wrap components used by many companies, we use high-quality PVC to ensure your door will not rot, mold, or mildew—no matter the weather.

ADJUSTABLE LOW PROFILE SILL

We use the highest grade low profile aluminum/composite (NO WOOD) sill on the market, engineered for strength and easy adjustability. With a simple turn of a screw, you get a perfect fit and seal. Our PVC backed sills and undermount sweep provide superior protection without the risk of warping or damage over time.

THICK FIBERGLASS DOOR SLABS

Our fiberglass door slabs start at a minimum thickness of 3mm and reach up to 5mm. This added thickness offers exceptional strength, rigidity, and impact resistance while allowing for endless design possibilities. The thicker the fiberglass, the stronger the door.

What Makes Our Doors Better?

At Entry Edge, every door is engineered for lasting beauty, performance, and peace of mind. Here's what sets our fiberglass entry doors apart.

BUILT TO LAST

Our fiberglass doors with composite components resist the elements, so they won't rot, warp, or crack like wood—delivering reliable performance for years to come.

LOW MAINTENANCE

No repainting. No restaining. Our doors are easy to clean and designed to look beautiful with minimal upkeep—so you can spend less time maintaining and more time enjoying your home.

ENERGY EFFICIENCY

Insulated fiberglass cores and high-quality weatherstripping help keep the cold out in winter and the heat out in summer—improving comfort and helping reduce energy costs.

WEATHER RESISTANT

Moisture-resistant materials and a precision sealed system help protect your door from rain, humidity, and temperature changes—preventing warping, swelling, and rot.

SMART INVESTMENT

Fiberglass entry doors deliver the look of real wood with greater durability and lower maintenance—giving you long-term value and lasting curb appeal.

What Makes Our Doors Better?

THANK YOU

FOR EXPLORING OUR COLLECTION

We hope this catalogue has inspired ideas for your next project and helped you envision the perfect entryway for your home.

At Entry Edge, we are passionate about quality, design, and craftsmanship—creating doors and windows that make a lasting first impression.
